Library News: STORK Trivia:

February's Millie is The Wheel on the School by Meindert DeJong. It takes place in Holland at a much earlier time. Then and now, it is considered good luck for a stork to build a nest on your roof. The children in the story want to attract a stork to build a nest on their school, giving all of them good luck. These storks migrate between northern Europe in the warm months and Africa in the colder months. What kind of stork is this? Submit your answer before 7^o today in the stork box in the library. One winner will be picked each day this week.
