38% of our school participated in our Go Green to school for house points and hot chocolate. Those 240 students saved 1,989 pounds of CO2. The raffle question was "How many trees would have to be planted to off-set the CO2 emissions if all those students, instead of using green transportation, drove in their family vehicle to school. The answer is, 32 trees would have to be planted to remove the 1989 pounds of CO2. The winner of the prize goes to **Joanna Poliseri** who guessed 33 trees. Joanna, please pick up your gift certificate to Three Twins Ice Cream from Mrs. Clark in the school office.
